

RCRA Corrective Action Program Management at Redstone Arsenal

January 2006

*Environmental Management Division
Directorate of Public Works
U.S. Army Garrison-Redstone*

RCRA CA Program Management Tool

- An Access application being used to manage, manipulate, analyze, retrieve, display and publish Redstone Arsenal's RCRA corrective action program data.
- Uses Access relational database tables in a single storage area with forms, queries and reports which allows us to make our information accessible and usefully tailored to our programs methodology.

RCRA CA Program Management Tool - Benefits

- Maximize personnel more efficiently
- Consolidated program information
 - Correspondence
 - Reports
 - Work Plans
 - Sampling Data
 - Maps
 - Photos
 - Schedule
- Increased accessibility of information
- Permanent electronic record
- Communication tool
- Management tool

RCRA CA Program Management Tool - Future Enhancements

- Ensure total program compliance
- Integrate with CC program
- Add CERCLA program data
- More reports and queries (management tools)
- Integrate with other EMD databases and GIS
